Hi Juan and Council Member O'Farrell,

I hope you are both well.

I am reaching out to you both in hopes of attaining your help and guidance in removing the homeless encampment that is right outside our property's parking lot gate, which has been unmoved, and growing, for a few months now. Photos attached here for your reference. Recently they've spread their items so that the sidewalk and alleyway are unusable, completely blocked off to tenants who might park on the street and need to come toward the side gate entrance.

Frequently seen in the camera are multiple folks visiting this encampment for drugs, even parking in our driveway to make "a quick run" to this tent. Many times the folks on foot they find their way into our private, enclosed and covered parking lot and garage for the use of their just-purchased drugs. However, this is not why I am writing you today. The alleyway and sidewalk from the street (Juanita Ave) to our property's side gate is completely blocked by this homeless encampment.

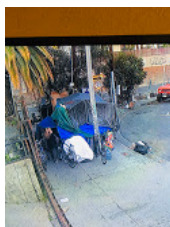

After multiple unanswered service requests and photos submitted to the city through the 311 app, I decided that writing you might help push this request through, or at least get your attention in hopes of further proper action. I have called the non-emergency police number to request more patrol in the area, and to inform them of the blockage by this tent, but this action has also proven unsuccessful in deterring these folks from spreading their items in such a way as to completely block passage from the street to the alleyway leading to our property's side entrance.

Also, could you please schedule cleaning and trash pickup for Juanita Ave at Beverly Blvd? The trash from the sidewalk homeless encampments is now extended (or has been thrown) into the street blocking a good half of street. They have lit it on fire as portions of this pile of is completely charred.

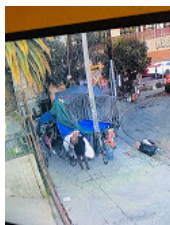

Please help us deal with these items, and let us know what action we might be able to take in the future to have regular street clean ups and sanitation for this area, as well as the cooperation of the police force in dealing with homeless folks' intrusions and alleyway blockages.

Thank you for your time and help.
